

**Eva-tech**  <sup>TM</sup>  
Designed for life.

**WPC DECKING 2012**

## DURABLE, PRACTICAL, AND NOW AFFORDABLE

Eva-tech composite decking is designed to be part of your home, your life and your future. The material is designed, manufactured and tested to maintain its look and durability even in the face of extreme weather conditions, saving you both time and money otherwise spent treating or maintaining timber decking.

Eva-tech is available in a range of colours, finishes and sizes to suit your individual needs and style. Eva-tech products are guaranteed by a limited ten year warranty, allowing you the peace of mind to sit back, relax and enjoy your new outdoor living space.

Eva-tech composite material fulfills your need for high-quality, low-maintenance decking and takes environmental responsibility seriously.

## BENEFITS OF EVA-TECH DECKING

- » Low-maintenance
- » Environmentally friendly
- » UV & moisture resistant
- » Splinter free surface
- » Highly slip resistant
- » Quick & simple installation
- » PVC Free - healthier for the environment
- » Ten year warranty against rotting, warping and cracking
- » Wide range of colours & finishes available

## COMPOSITION OF EVA-TECH MATERIAL

Eva-tech is comprised exclusively of recyclable materials, which are collected as waste from local recycling centres. Not only does Eva-tech look attractive and perform well, it also lowers the need for landfills and preserves South Africa's natural resources.

**60%**

Reclaimed wood fibre  
(Waste from South African saw mills)

**40%**

Recycled high-density polyethylene  
(Common waste plastics like cold drink bottles)

**100%**

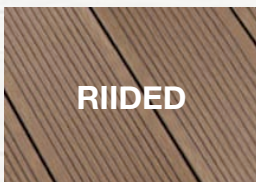

Eva-tech decking  
(Made from recycled materials)

## DECKING PROFILE OPTIONS

The Eva-tech decking range consists of three different profile types, two solid and one hollow. These profiles all come in six natural colours, and are available in the following five non-slip finishes, making it possible to suit any style or application.

1

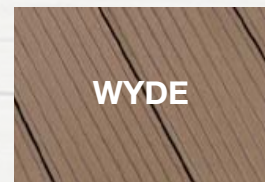

RIIDED

2

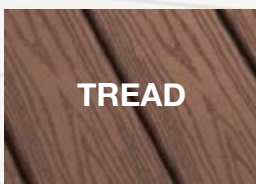

FYNE

3

WYDE

4

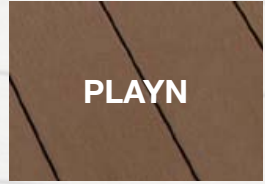

TREAD

5

STREAKY

6

PLAYN

## ENVIRONMENTAL RESPONSIBILITY

A green product is only as green as all of its components. Eva-tech composite is manufactured in environmentally conscious facilities with strict pollutant limitations. It is transported in bulk through independent companies dedicated to continually reducing their carbon emissions.

Nothing is wasted in the production of Eva-tech materials. Eva-tech helps clean the environment by using reclaimed wood fibre and recycled plastic as its primary raw materials. Eva-tech saves countless trees by offering a durable alternative to traditional timber outdoor products.

## COLOUR OPTIONS
