INTEGRATED RAILING SYSTEM

**SAFER,
STRONGER,
STUNNING RAILING**

www.eva-last.co.za

A PRODUCT BY **EVA-LAST®**
INSPIRED BY NATURE, DESIGNED FOR LIFE.

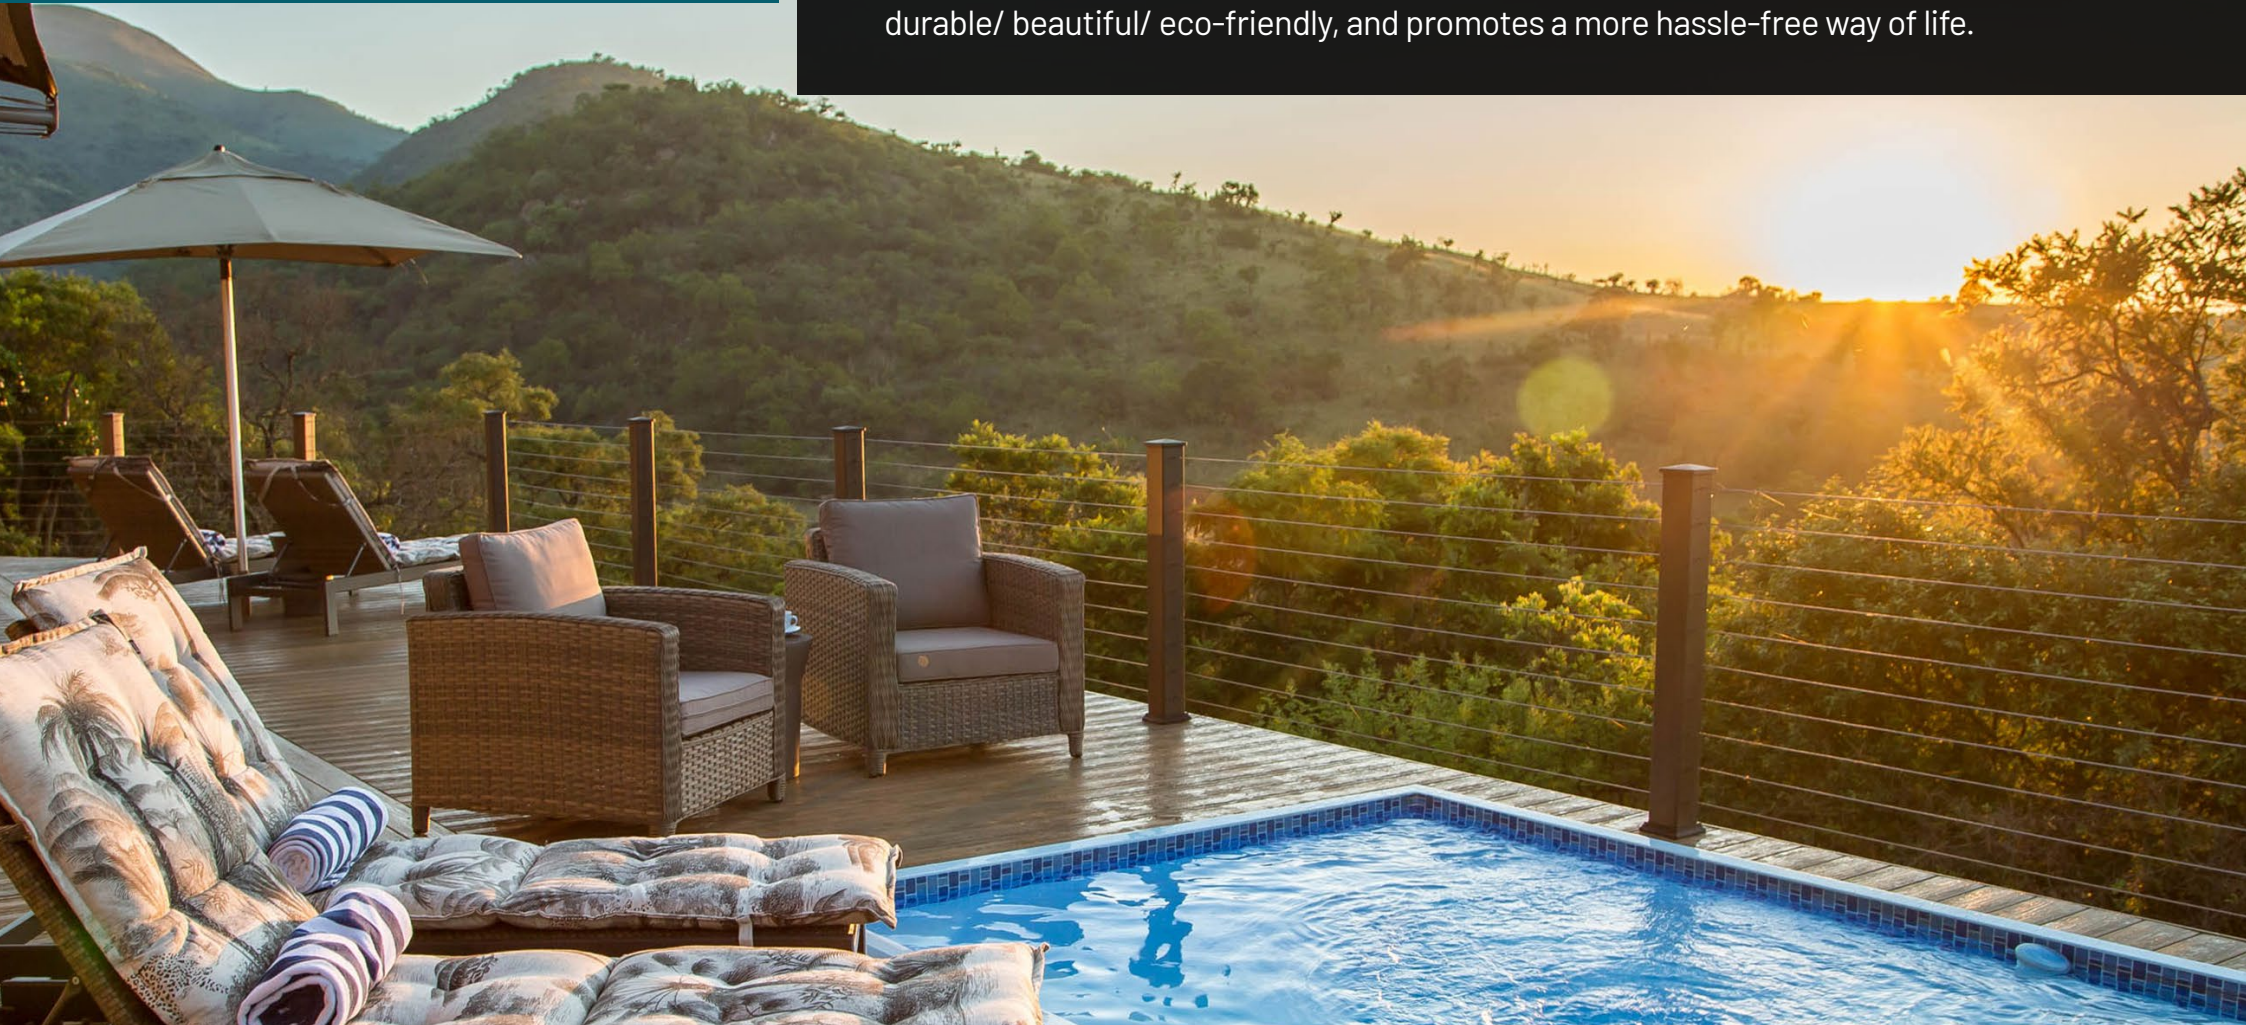

INTRODUCTION

RapidRail eco-friendly composite railing offers long-lasting reliability and safety in a selection of natural colours and styles and is designed to work with a variety of decking materials and accessories. As its name suggests, RapidRail installs rapidly and easily using smart configurations which reduce the number of connections required. RapidRail offers protection from insects, moisture issues, decay, and harsh weather.

RAPIDRAIL BENEFITS

RapidRail combines safety and artistry for a composite railing system that makes your space more functional, more secure, more appealing, and virtually maintenance-free. Make your deck a truly liveable space with a railing system that is innovative, customisable/ durable/ beautiful/ eco-friendly, and promotes a more hassle-free way of life.

VERSATILE COMPOSITE RAILING SYSTEM

Choose from a range of bamboo composite balustrade styles to suit the look and functionality of your outdoor space with RapidRail. RapidRail is designed to be easily customisable and can be paired with different railing systems to provide greater versatility. The RapidRail composite posts accommodate composite railing or high-visibility stainless steel cable. RapidRail can perfectly match or complement your composite deck.

RAILING OPTIONS

COMPOSITE NEWELS

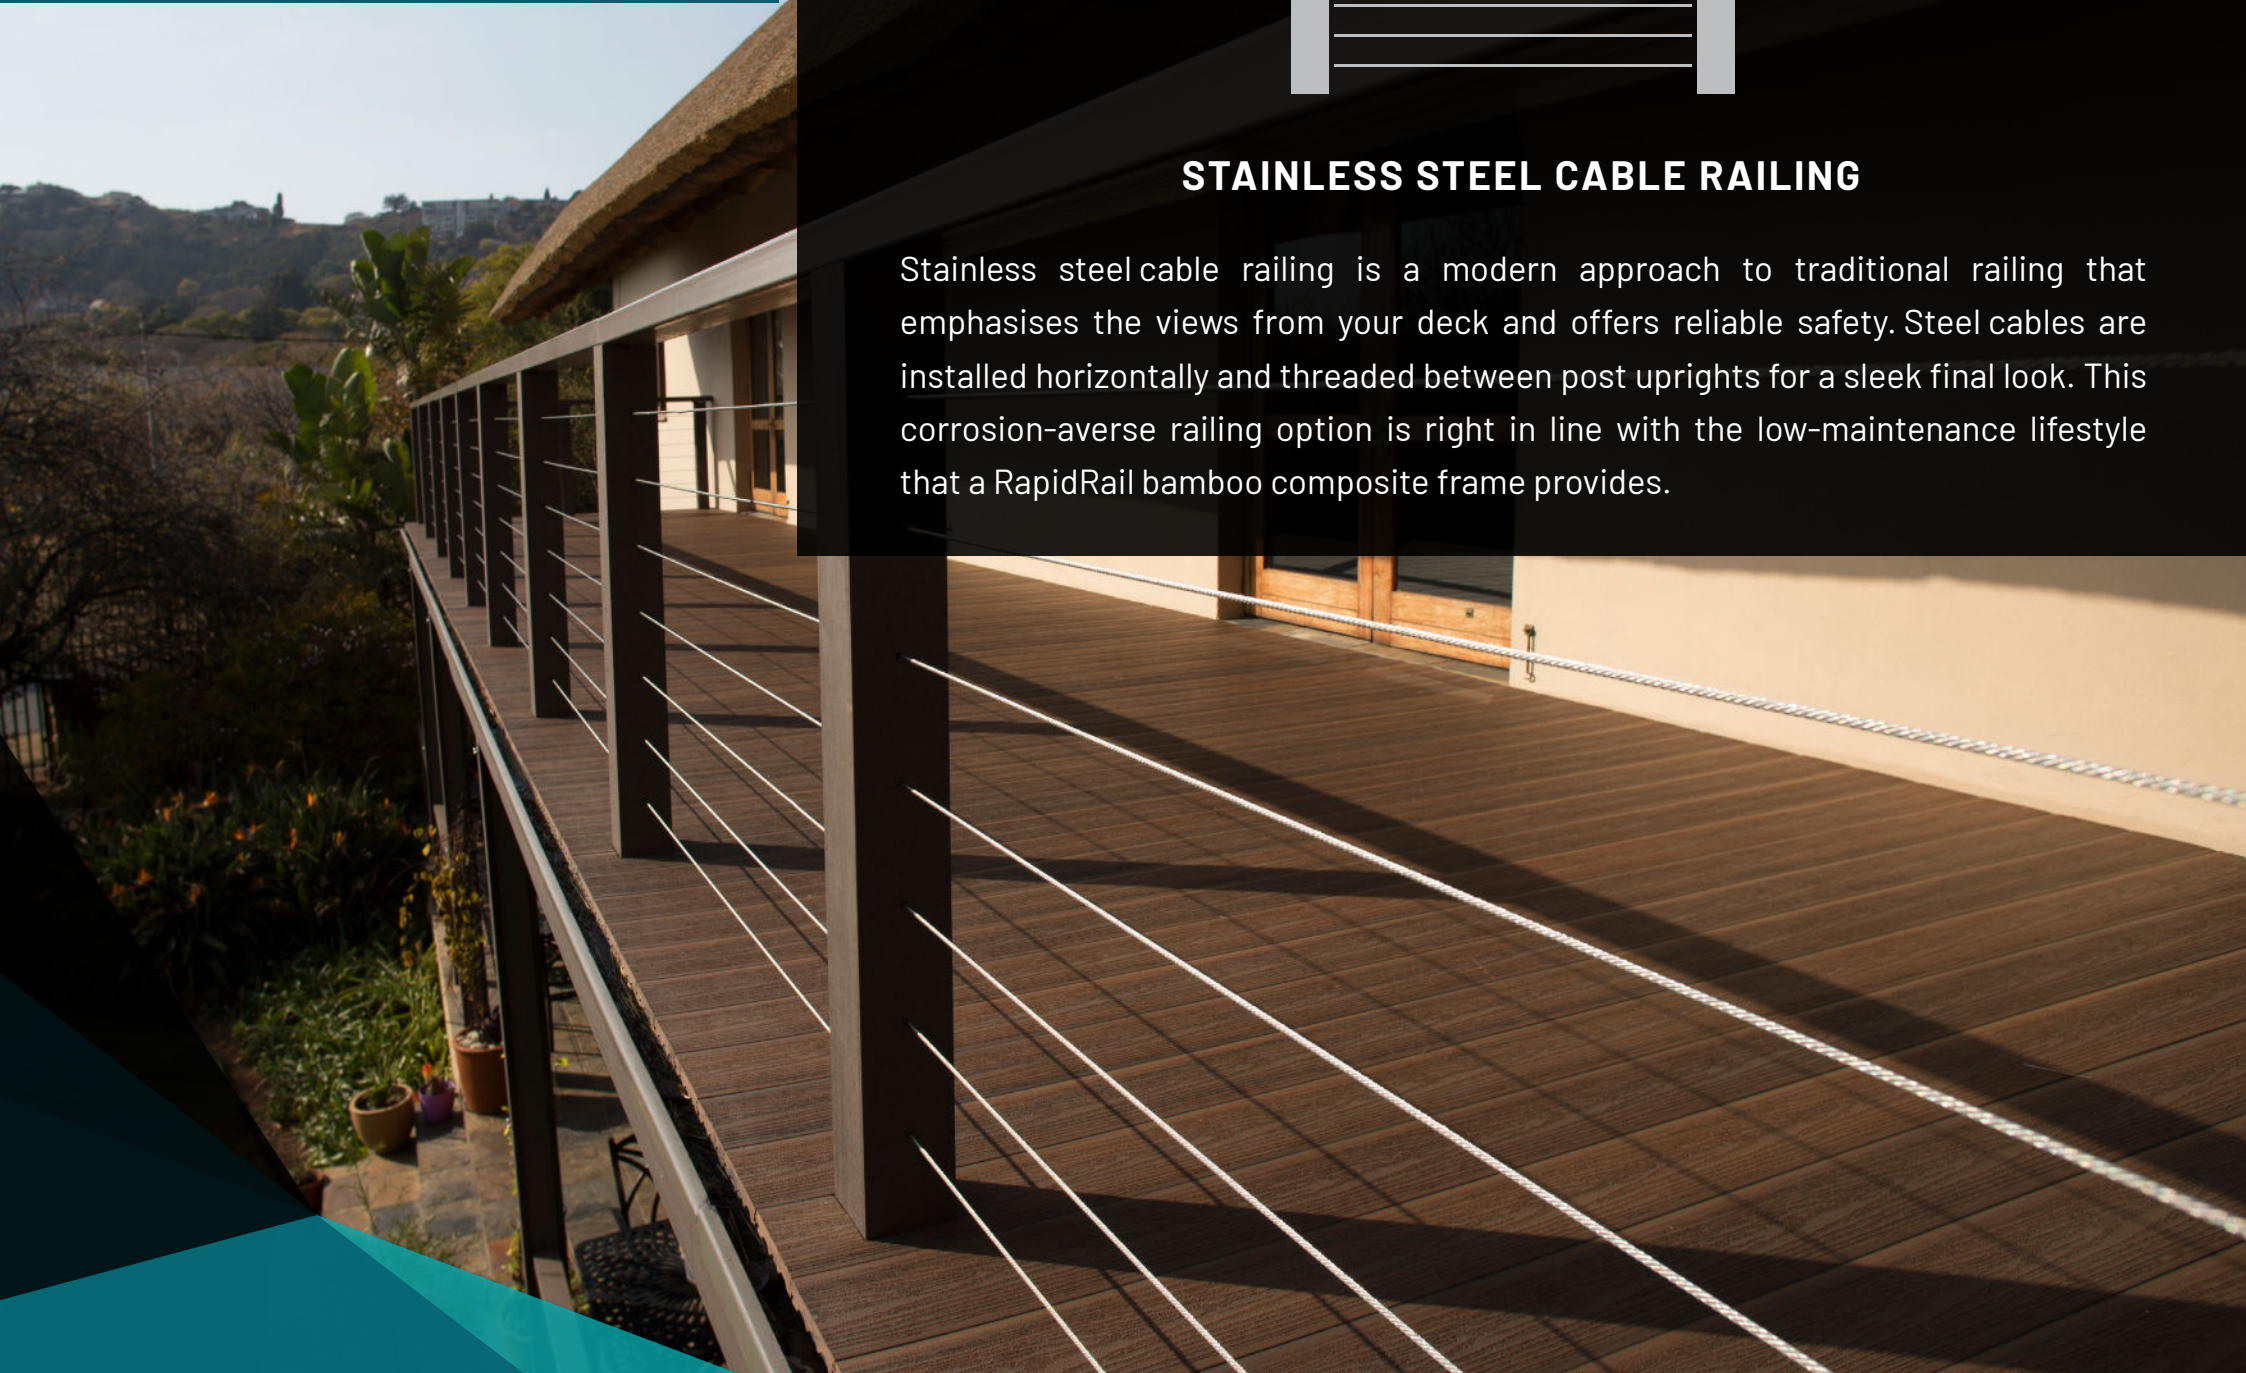

RapidRail composite newels are available in a range of composite colours to give you the choice of creating a perfectly matched composite railing system or establishing contrast by mixing and matching the colours of your handrails and balustrade. All RapidRail colours are preserved with built-in UV protection for long-lasting beauty.

RAILING OPTIONS

STAINLESS STEEL CABLE RAILING

Stainless steel cable railing is a modern approach to traditional railing that emphasises the views from your deck and offers reliable safety. Steel cables are installed horizontally and threaded between post uprights for a sleek final look. This corrosion-averse railing option is right in line with the low-maintenance lifestyle that a RapidRail bamboo composite frame provides.

COLOUR GUIDE

RapidRail is conveniently available in two trusted Eva-Last composite technologies, Infinity and Eva-tech, offering top-of-the-range capped and uncapped bamboo composite in a variety of natural colours with a brushed softwood finish.

THE BENEFITS OF RAPIDRAIL FOR HOMEOWNERS

1. Easy to create

RapidRail offers simplified installation and is easily customisable for a home project.

2. Easy to own

Homeowners enjoy the low maintenance of RapidRail and the hassle-free lifestyle it brings with its built-in moisture and insect resistance.

3. Easy on the eye

RapidRail is available in a range of natural colours and a brushed softwood finish that gives the look of timber railing. It is compatible with other railing systems to give homeowners greater control over the end look of their outdoor project.

4. Easy to enjoy

RapidRail brings homeowners peace of mind thanks to its longevity and industry-leading warranty, its reliable performance and splinter-free surface, and its eco-friendly composition that help preserve our natural resources.

THE BENEFITS OF RAPIDRAIL FOR CONTRACTORS

1. Easy to install

RapdiRail is designed for quicker, simpler installation that requires fewer fasteners than traditional railing. Contractors can enjoy its efficient and cost-effective installation.

2. Easy to customise

Contractors are able to offer clients more options and choices thanks to the versatility of RapidRail, which is available as a complete railing system or can be easily integrated with other railing systems.

3. Easy to recommend

RapidRail is a long-lasting and durable product backed by an industry-leading warranty. Its low-maintenance and eco-friendly features appeal to contractors and clients, alike.

THE BENEFITS OF RAPIDRAIL FOR DISTRIBUTORS/ DEALERS

1. Easy to order

Compact RapidRail railing kits can be delivered more efficiently than traditional railing components. Eva-Last representatives are experts in composite and prioritise customer care.

2. Easy to recommend

Distributors and dealers can confidently put their name behind RapidRail and recommend it as a resilient and convenient railing option with a proven track record and industry-leading warranty.

3. Easy to suit clients' needs

RapidRail appeals to a large clientele base. It is customisable, reliable, low-maintenance, and eco-friendly. Its growing global popularity attests to its marketability.

4. Easy on the environment

RapidRail is a holistically environmentally friendly product, from its recycled raw materials to the solar power utilised for its manufacture. Plus, it negates the need for environmentally-harmful cleaning agents, stains, or sealants.

SMARTER PACKAGING FOR EFFICIENT DELIVERY

RapidRail is designed for simplified and streamlined shipping and distribution.

Posts and rail packs are shipped together on 2.9 m pallets which also conveniently include all relevant fasteners. Accessories like newels, post caps, and skirts are packaged separately to optimise storage and transportation space without sacrificing style options.
